The whole family all love Palau

This family is from Japan. So when they saw the Japanese translation staff presence & because they are not good at English expression, they felt very at ease. Their sea trip favorite Jellyfish Lake, one only of jellyfish floating around really cute. Second favorite is the hotel's breakfast supply. Breakfast is very important for the Japanese so when they see our set of breakfast buffet they can not help but get up looking forward to another delicious breakfast they can eat.
